## PROFESSIONAL OBJECTIVES

As an Engineer in Computer Technologies, my goal is to continue growing professionally in the field of Web development and become a highly skilled programmer. I seek opportunities that allow me to apply my technical skills and knowledge to create innovative solutions and improve user experience.

## AREA OF EXPERTISE

Web development	Testing and Quality Assurance	AI and Machine Learning
Front end Development	Responsive Design	Mobile Ap

## PROFESSIONAL EXPERIENCE

### Wizeline Internship

- Created unit tests using Vitest, ensuring the reliability and robustness of applications.
- Developed and refined UI components utilizing Remix and Tailwind CSS, contributing to the creation of user-friendly and visually appealing interfaces.
- Enhanced skills in testing and front-end development while working in a dynamic and collaborative environment.

### Junior Developer AbdoTech

Sep 2023 – May 2024

- I participated in several web development projects, which allowed me to expand my experience with front end and back-end technologies like React, GraphQL, MongoDB, Node.js and Express. My contribution ranged from design to implementation, strengthening my programming and teamwork skills.
- Led the creation and launch of an iOS app using Flutter, collaborating with a team of developers.
- I worked with AI technologies, specifically using Langchain, where I developed and integrated AI-driven solutions to enhance various applications and processes.

### Freelance

- Designed and developed three web applications for diverse clients, handling the entire process from concept to production. Delivered robust front-end and back-end solutions, ensuring seamless functionality and user experience.
- Deployed applications to cloud platforms for scalable and secure performance. Utilized modern technologies, including Next.js, Tailwind CSS, Firebase, and Auth0, to build responsive, efficient, and reliable web solutions tailored to client needs.

## EDUCATION

---

### ITESM

2020 - 2025

Ingeniero en Tecnologías Computacionales

- Focus on programming, web development, and databases

## ADDITIONAL INFORMATION

---

**Languages:** Spanish, English (TOEFL B2)

**Awards/Activities:** Assisted Ternium as part of an academic activity, where we developed a web app tailored to their needs (2022). Participated in another academic activity with Wizeline, where we created a basic web app of a chatbot using the OpenAI API (2023).
